## HARD SKILLS

- HTML
- CSS
- Javascript
- React
- Git/Github
- Firebase Functions
- React Router Dom
- Typescript
- React Fetch API
- React Hooks
- React Composition
- Animation
- Design Principles
- English & Spanish
- Slack
- Notion

## SOFT SKILLS

- Communication
- Teamwork
- Adaptability
- Problem-solving
- Time Management
- Attention to detail
- Leadership
- Creativity
- Flexibility
- Empathy
- Patience
- Curiosity
- Adaptability to change
- Fast learning

## EXPERIENCE

React.js

Shopping Cart Feature

2023

I developed a shopping cart component to add, remove, and update items. It improved my skills in state management, React architecture, UX, and testing. I learned to integrate APIs and handle form data, creating a seamless experience for users. This showcases my ability to build efficient and user-friendly apps, demonstrating my commitment to high-quality software.

React.js

Fetch API Feature

2023

This React fetch API component required me to handle asynchronous data retrieval, which improved my skills in working with APIs and state management. I also learned to handle errors and edge cases, creating a robust and reliable user experience. By integrating this component into my projects, I demonstrated my ability to work with external data sources and create dynamic web applications.

React.js

Search Bar Feature

2023

I developed a Search Bar component using React.js and integrated it with a REST API to provide real-time search results. This improved my skills in React state management, event handling, and asynchronous programming. Additionally, I implemented UI/UX best practices to create a user-friendly experience. This project showcases my ability to build scalable and efficient applications, demonstrating my commitment to delivering high-quality software.

## REMOTE EXPERIENCE

Lead Motion Graphics Artist

Höski Media

Canada / 2021 - 2023

As a motion graphic artist, I developed professional-level visual assets for diverse clients, adhering to their brand guidelines to create unique ads. Using design and animation principles to draw specific audience attention and achieve client goals. Communicating effectively with different departments to maintain a structured and organized workflow.

## EDUCATION

Certification in Web Development

FIXTERGEEK

México / 2022 - 2023

Major in:

- Front-end Development
- Full-stack Development

Bachelor in Engineering

UPMH

México / 2016 - 2020

Bilingual Major in Animation and Visual Effects.
